This project has been funded with support from the European Commission. This publication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

# Aim of The Project

EUREKA, aims to intervene by promoting innovative and digital educational methods and the development of new training courses that foster the attractiveness of the school environment and its key-role for a much more smart and inclusive society.

# Expected Outputs

- Development of an interactive education and data sharing platform with a virtual community
- Production of "GAP analysis report"
- Production of Good Practices Handbook summarizing the project's objectives, methodologies and results
